Debbie DuPree Chris Pratt The Appalachian Trail was closed because on any given year around April and March thousands of people start the trail in Georgia thru hiking to Maine. Then with so many people out of work and social distancing that added more people on the trail. A couple of the main concerns was people becoming sick many miles from civilization and not being able to get medical attention. Also that people going into the little small mountain towns to replenish their supplies would infect the community.

Marty Warrick I love parks I love Percy Warner Park Edwin Warner Park centennial Park in the park off of White bridge road I cannot think of the name of it but I go there a lot I can sit there on the bench 4 hours just enjoying the peace and quiet serenity and the green grass plus they have facilities that I can use when I need them it is old-fashioned with no plumbing but still it is and available facility there have been times during 2020 when I could sit there all day here lately oh nice pretty days it's starting to be crowded when I say crowded I mean 6 or more vehicles with families I have agoraphobia issues when strangers get there it is time for me to leave however I love our parks. In 2019 in 2020 my girlfriends had a goal to visit every Park in Davidson county.once, spring arrives, we are going to pick up that goal. We usually go to the parks on Saturday and make a whole day of it.

Peter Concannon Tony Williams good lord. It's just lines on a map. Why not get out and see some places? I'm in Florida but have very much enjoyed my time in the Georgia mountains as well as Florida's beaches, theme parks, cities, springs, rivers, lakes, and forests. And assuming you really don't want to leave Georgia, why did you have to post about that here? If you don't want to visit South Carolina, it's no skin off your back if the state advertises what it has to offer.

at 4:58:53 on 1/24/2021 UTC

Allen Israel Are mask required..lol

at 14:22:46 on 1/24/2021 UTC

Faith Ann Paulus Peter Concannon agreed! We moved to the east coast from the west coast so to enjoy all of it. Plus in comparison -so little traffic to get around the southern states. The pandemic travel is all about the discovery of everything that is good in our country.
