Message:

S. Carolina shares a symbol of hate & racism with the flag of terrorists & traitors, the confederate flag. That a government displays this hate symbol on government tax supported property is an abomination perpetrated by enablers & supporters of hatred, & racism. The public servants like yourself need to know that this makes you an unacceptable candidate for national office. People like you & L. Graham will not be electable nation wide until you stop supporting & sharing viewpoints with nazis & the klan. Governor Haley did not compare well with the families, friends & congregants of the nine hand gun victims who spoke of forgiveness & love. Please do not posture as if you are deeply touched by the gun deaths of the 9 when you refute & speak in direct opposition to their religion & to the feelings & beliefs of their loved ones. Stop playing politics with the dead victims of gun violence. Your actions speak for the racists, haters in direct opposition to the religious beliefs & feelings of the gun violence victims & those who loved & respected them. Shame on you for trying to use the murders of 9 people for your political gain. The only ones who back you are racist supporters of the KKK & nazis. You are alone with your confederate flag. The Republican party doesn't dare align themselves with you. Wave your racist flag. You show us who you are.
