Celebrate Charleston's 350th Anniversary at Charles Towne Landing with a day learning about how the Animal Forest's zookeepers enrich the lives of animals in their care.

Gene Dennis Lynn Lecroy if a coyote eats your family pet, you would be singing a different song.
at 15:20:28 on 3/09/2020 UTC

Lynn Lecroy Gene Dennis you don't need to put in on face book I believe in shooting them but you don't need to put it on line I believe in shooting anything that would harm my animals or including humans but you don't have to show to everybody

Calvin Johnson I wish I could see the literature they handed out at the gate when you paid for the entrance ticket/ pass at the ticket booth including the map and etc in 1970 when they opened. Also I wish I could see the video they showed in a theater that first year. I remember them saying to get the full impact of the place to see the video first before doing any thing else.

Diana Davy Calvin Johnson right after they opened and they had the pavilion showing movies, I don't remember the literature that was handed out because I was only 10 or 11 and it was a school field trip. I do remember however that it is completely different than what it was then. I remember going to the pavilion to get the introduction video and then we were

guided through the animal park and the other exhibits before going to the picnic area for our field trip picnic lunch. I do remember that we had a scare while we were there because they had recently acquired an Eastern cougar and nobody could find it so they thought that it had escaped its enclosure LOL.

they also had a replica boat there I believed it was called The adventure? I can't really remember but we were all allowed to board acrossed a plank and have a look.

Andy Hughes Julie Anne Johnson they destroy so much wildlife here that it's pityful not to mention all the pets they kill so if that's hateful , I guess I'm hateful , sorry but I hate a coyote .
