A love story with a challenge.

Based on the novel by the best-selling author Colleen McCullough (The Thorn Birds), TIM is an Australian film which tells the story of the relationship between a handsome, young man (Mel Gibson), and an attractive businesswoman in her mid-40's (Piper Laurie). Tim is mentally retarded, but thanks to his understanding and loving home life he is able to move through life almost with a child's gentleness and content.

When her gardener injures his back, Mary, Tim's next door neighbor hires him to do yardwork. Their friendship develops, first as teacher-student, then, as a more intimate relationship surfaces, the question of marriage arises. The responsibility of this love creates a challenge to be considered carefully.

TIM is notable not only for the tenderness that permeates the film, but for the appeal and persuasiveness of two-time Academy Award nominee, Piper Laurie (CARRIE, THE HUSTLER), and Mel Gibson, star of THE ROAD WARRIOR, GALLIPOLI and LETHAL WEAPON. An unusual love story.
