Subject: Poor Home Delivery Service in Lexington, SC

I have contacted the Postmaster who supposedly oversees all post services in the area and have received no response. I am very much concerned about the late Home Delivery Service to our neighborhood. Our neighborhood is at the end of a very long route. Receiving your mail between 5 and 6 p.m. daily is unacceptable. It is not safe for homeowners to be going out in the dark of night during the winter months to get their mail. During December our mail service was as late as 8:30 p.m. and some days we received no mail. This is unacceptable. The Post Office has just increased our postage rates . They need to provide better service to their customers and hire more delivery personnel. Many of us receive our bills through the mail and do not pay on-line. It is essential that we receive our mail at a reasonable hour in case we need to respond to correspondence immediately. Please let me know who I contact that oversees the post offices in Lexington County and the City of Lexington other than the head Postmaster for this area. Thank you.
