Subject: Critical Incident Group Debriefing Resources

Access the following training right from your desk:

Live Webinar - Critical Incident Group Debriefing

June 17 from 1pm - 2pm (CST)

Critical Incident Group Debriefing (CIGD) is a short-term group intervention process that focuses on an immediate crisis. CIGD is one method that can be utilized to lessen the likelihood of participants experiencing symptoms of trauma and stress after a critical incident. This group debriefing process provides a place for participants to talk and share experiences, and for the facilitator to teach and provide information about the impact of critical incidents. Participants of this webinar will not only learn about facilitating a group debriefing, but also have a better understanding of when a group debriefing might not be appropriate.

Live Webinar - De-escalating Potentially Violent Situations™

June 5 from 1pm - 2pm (CST)

For those who work in an environment where there is potential for violence, it is important to develop the skills needed to defuse dangerous situations. This webinar will focus on how to de-escalate potentially violent situations through assertiveness and interpersonal communication. Participants will gain a clear understanding of how to assess the potential for violence and respond with a diverse set of interpersonal tools and strategies designed to defuse potentially violent situations.
