South Carolina State Parks

at 15:50:03 on 7/22/2014 UTC

It's a bird, it's a plane....it's a spotted eagle ray! Here's another cool sighting from the Myrtle Beach State Park pier this weekend. Our park interpreter captured this photo and some visitors even saw it jump out of the water! This fellow was about 5 feet across. These rays can grow up to 9 feet across. You just never know what might appear from the pier!
