Pat,

My apologies for not including you on the previous email. I want to adhere to the proper protocol.

Please consider my request to meet with the Board of Visitors.

This meeting is on my behalf, with regards to my son. Let's make sure that is clear. I, Edward Boyer Surman, am making the request... not Andrew.

I am going on the record for this request.

I also wanted to include the College Response and Information from the Commandant.

The College Response is beyond words with regards to the comments from Lt. Col. Robert Sberna. "No Merit" ...."illogical" – pg. 7 #7.

School officials "cover up" a Felony Assault on Campus>>>.... And I am illogical?

Oral Testimony from a Public Safety Officer has "more merit" than the facts of the case?.....Page 6 Second Response. And I am Illogical?

The most important information and facts are improperly dismissed by the term "no merit".

Once again, I am looking forward to a favorable response for a meeting with the Board of Visitors.

Respectfully,

Edward Boyer Surman - The Citadel '80

**Subject:** Board of Visitor Special Appeal - Cadet Andrew Surman

Distinguished Members of The Citadel Board of Visitors:

Many of you BOV Members did not have the opportunity to read the appeal on this case. Here it is. And this is just the Appeal. (exhibits not included but available)

This entire case and situation has been handled in the most unprofessional manner I have ever witnessed.

As an Alumni myself, I was taken back with the way I was treated by the Commandants Board. All communication has been "spotty" at best.

At least you (BOV) should be willing to hear from the victim in this case....my son, Cadet Andrew Boyer Surman.

If you read the charges and the responses.....you will see he had nothing to do with the charges against him. He denies having any involvement and those are the facts.

I question how the College Response was even derived? Information was again,
