Subject: Pain-free UTV Purchasing. Brilliant Bed Box Loading.

[Mobile friendly version](#) [View in Browser](#)

It's no secret that the costly, complex and snail-paced government purchasing process can take months, devour hours of time and leave you drowning in a sea of documents.

But you can avoid those hassles and the costs that come with them by purchasing small four-wheel vehicles through Club Car's contract with the City of Kansas City, Mo., with the participation of U.S. Communities, the gold standard of government cooperatives.

The contract gives you easy access to the best overall government pricing on our industry-leading vehicles, backed by our fleet planning and management expertise. Participation in [U.S. Communities](#) is free.

The [Club Car contract](#) was awarded after the lead public agency, the City of Kansas City, Mo., completed a competitive RFP and thorough evaluation process for vehicles.

Public agencies can piggyback on this competitively solicited contract without going through the RFP process.

The contract covers Club Car's portfolio of small four-wheel electric, gas and diesel vehicles, including:

- Carryall® utility vehicles. (4x2s and automatic 4x4s and two- and four-passenger models.)
- Carryall® LSVs. Street-legal on roads with speed limits of 35 mph or less in most states.

- Transporter™ transport vehicles. (Four- to eight-passenger.)
- Villager™ transport vehicles. (Four- to eight-passenger.)
- Precedent® golf cars.
- Café Express hospitality vehicles.
- Service parts factory direct.

Club Car vehicles are built on rustproof, corrosion-resistant aircraft-grade tubular aluminum frames designed to be stronger than steel frames. Gasoline models are powered by new best-in-class EFI engines. Electric models feature high-frequency, solid-state chargers that prevent common charging errors.

Carryall utility and transport vehicles accommodate Club Car's configurable, removable, VersAttach track-based bed attachment system for organizing and protecting your valuable equipment and keeping your crews moving.

The system's mount fits into the vehicles' Rhino®-lined aluminum beds and accommodates a selection of VersAttach tools, including:

- Ratcheting, standard and multi-tool holders
- Backpack blower racks
- Ladder racks
- Bed dividers
- Cargo tie-downs

The holders and racks let you load equipment outside the box, freeing bed space, reducing round trips and boosting productivity. When it's not needed, the system can be removed in a snap. [Play](#) the VersAttach video and see for yourself.

Club Car vehicles are sold through our dealer and distributor network. To find an Authorized Club Car Dealer or Distributor near you, visit www.clubcardealer.com.
