he senate is the real roadblock for road repair.

The senate must act now to pass a roads bill.

I stand here as a voice of leadership to demand that action be taken.

From day one the Governor has said that reform is a necessary component of the roads discussion and I commend her for this position. But she has been silent lately. I asked to meet with her this morning on roads and she did not have time. She felt it was more important to travel the state endorsing candidates than to be here putting pressure on the senate to take action and get us a roads bill.

She has not been a leader on this.

[Katherine F. Veldran](#)

Director of Legislative Affairs | Office of Governor Nikki Haley
