The low life politicians took the confederate flag off the monument because most politicians r just puppets for the naacp

If SC can give funds for a black museum which is a joke why cant SC build a Hunley monument over looking Charleston harbor for those confederate soldiers that gave their lives for SC

U do everything for blacks and u try to do away with confederate history because u want their business.I would never vote for u and if u dint like this message call me Steven 864-209-3685 we will discuss it

I think all politicians r lying crooks just doing for themselves
