Articles of Impeachment against Rod Rosenstein are coming!

## It's Happening: Deep State Impeachment Resolution is Coming this Monday!

House Conservatives in the Freedom Caucus are moving forward with their plan to impeach Rod Rosenstein, with or without the Paul Ryan's approval. We have just learned from multiple sources that they will introduce these Articles of Impeachment on Monday.

Yesterday, Rod Rosenstein held a surprise press conference on 12 indictments against Russians for allegedly hacking into the Democratic National Committee. Just like the last round of indictments, these Russian intelligence agents will never face any time behind bars.

If they actually wanted a conviction, they would have kept the indictments sealed and lured the targets into the United States or an extradition country. But that's not what Mueller and Rosenstein did. They announced the indictments just 48 hours before Donald Trump was set to meet with Vladimir Putin. This isn't about punishing people for hacking the DNC. If it was, they would have kept the indictments sealed. No, this is a Deep State attempt to derail President Trump's Russia summit.

For weeks, House Conservatives have hinted that they had articles of impeachment against Rod Rosenstein already drafted. This week alone, we bombarded Congress with close to half a million faxblasts demanding that they remove this deep state criminal immediately. Now, Conservatives in Congress are listening and moving forward!

Paul Ryan promised that if Rod Rosenstein continued to defy Congressional subpoenas, then the House would vote on a Contempt resolution.

As you know, that deadline came and went and Paul Ryan was nowhere to be seen.

Conservatives are moving forward with this, with or without the Speaker. And they're not just going for a contempt resolution... their plan is to remove Rosenstein from office entirely.

This man believes he is untouchable. Between his decision to blatantly defy lawful Congressional subpoenas, his dereliction of duty in the management of the Mueller investigation, his deliberate attempts to derail the Trump administration's foreign policy, or the most recent revelation that he is using 93 Federal prosecutors to look into Supreme Court Justice Brett Kavanaugh's life, the man has gone too far.

The articles of impeachment have been drafted. After Rosenstein's charade yesterday, House Conservatives want to unveil them on Monday to start collecting signatures.

Of course, Paul Ryan and the GOP are desperately trying to block this from happening.

The question you need to ask yourself is this: are you ok with what Rod Rosenstein is doing, or are you ready to kick this Deep State conspirator to the curb?!
