March 18, 2015

The Honorable Nikki R. Haley
Office Of The Governor
1205 Pendleton Street
Columbia, South Carolina 29201

Dear Mrs. Nikki Haley

My name is Hannah. I am a student at McCracken Middle in Spartanburg, SC. I love to watch all of your speeches. I also like to know what is going on in the government. I hope one day to be the governor. I have so many questions to ask you. I hope that I could be like you one day.

I have always been fascinated about your work. I love seeing you trying to make the world a better place. I have a question though, why do you say you are going to fix or do things and you don't? I really like your work, but I hear a lot of compilations about how you do your work. I really like how you have thought of a way to fix our roads without having us as the people have to spend more money. I am just really glad that you were able to be the first female governor. I cannot believe that somebody in the government could be so kind.

Thanks again for reading my letter. I hope that I could be like you. I wish you the best of the luck for the future.

Sincerely

Hannah
