Jake Mumzen Dabbing: the smoking of marijuana oil (BHO) and the gimmick they are performing represents the cough associated with that consumption. Way to go in promoting drug use.

Kimmie Kasko Matt, Do some research on Panthers owner Jerry Richardson. Understanding his connection to SC may help you understand why the "Carolina" Panthers are a team for "Both" Carolina's. And to clarify, when they practice at Wofford College in Spartanburg, Richardson's alma mater, Millions are spent by the fans who travel to the area to watch them... generating quite a few tourism dollars for the great state of SC. And let's not forget about all the locals that travel to NC for games, buy sportswear etc... You are probably a Cowboy fan, or a butt hurt Patriot fan. Sorry buddy, maybe next year!

Bobby Jones Dabbing... When smoking weed in wax form and you cough hard. So you cough the marijuana smoke into your elbow. I think it's funny so many squares have no idea what they are mimicking and cheering for. It's coughing weed smoke, fools. Hahahaha

Nicole Wilber Not to mention when the area was founded in the 1600s it was known as "Carolina", the area was later split around 1729 into North and South.
