**I have a reservation on Thursday 14May at site #9 at Jones gap. Just making sure we are still good. Also had a question about fishing, is that the best site and closest to the river or is there a better site?**

I'm not familiar with the individual sites. Yes, you should be good if you already have your reservation. There may be new rules or guidelines put into place. I would suggest calling the park on Monday when they are not as busy and they should be able to answer your questions fully. Number can be found on the website at <https://southcarolinaparks.com/jones-gap>
