Subject: 787 First flight commemorative

Katherine

This is just a reminder that on our semi-annual lobby report filed with the State Ethics Commission, we listed a gift to the Governor. It was the framed commemorative of the first flight of the first 787 made in SC that Jack Jones presented to her at the Higher Education Summit. The cost of the commemorative was \$293.53.

Just wanted to make sure you had this amount for your records.

Thanks

JMM
