Let's do clips first. This can be an afternoon project.

Okay, I will compile a list of editors and their contact info after I type the rough draft. Clips will follow after.

Subject: Op Ed

Hayden, this op ed, which ran in today's State, needs to go to all the other papers. Please put together an email offering it to editors (send me the draft before you hit go). They'll have to go out to each individually. Also, please start a file to archive the appearances of this and others that he writes. Thanks
