**Subject:** Question about Gas Pipeline Leak

---

Hello there, my name is Chris Curry. I am a producer for News 12 NBC 26 in North Augusta, South Carolina. I hope you are having a good Monday.

I am reaching out to you to see what steps Governor Nikki Haley is taking to stay on top of any fuel shortages that could potentially be caused by the pipeline leak in Alabama.

Earlier today, Georgia's Governor issued an executive order to make sure gas stations were not trying to gouge their customers. I was wondering if Gov. Haley has considered doing the same or has issued orders to any agency for customers to report possible gouging.
