TIME TO PUNISH HIGH TREASON IN WASH., D.C. FROM ERASMUS OF AMERICA. MARCH 10, 2018

It seems I have been a nice guy too long and time to show Wash., D.C. run by high treason. I will now practice the ancient Sybylline Oracle policy towards ancient Rome that the price goes up on the information needed for the survival of ancient Rome until the final price would be paid which it was. The survival of ancient Rome hung upon obtaining these prophecies coming from the Sybylline source whose prophecies always proved true and accurate. Look up this ancient Roman history

when obtaining Sybylline knowledge and Rome would survive. Don't pay the price and Rome would fall.

I have been extremely decent and was willing to let Wash., D.C. get the Institute For Nuclear Studies for the planned nuclear annihilation of the stolen money from me of \$525,000 and I would show the top secrets from Moscow I obtained by a military intelligence tactic not in the military intelligence textbooks and never done as a military intelligence tactic before in military history and would never work again if tried once more. I spent eleven calendar years in military academies and sent a list to President Donald Trump so he and Wash., D.C. would know I was not lying on this background. I suggest to President Donald Trump to keep this list of military academies secret and the years attended secret as that serves American military interests best. While in these military schools, I learned self-initiative way beyond what normal Americans normally have and did not realize then I was brainwashed to expect success when I carried out daring military plans in military intelligence. I didn't know I couldn't win so won by faith that could move mountains if anyone had the daring to carry out very daring plans that were based upon common sense and an acute insight into the total dimensions of what reality was and how we could push to the limit how far we could aim for success and actually achieve the success we were after. This was despite all odds against this being possible to win against all theoretical odds against winning with such a daring plan. I privately studied military books in military school on British Intelligence as I called them "The Prince of Foxes" and came up with the tactic of "Magnet" which scored repeated successes in military intelligences such as cracking the top secrets of the Moscow Institute For Nuclear Studies and was my secret weapon how I won with my Slavic Royal Alliance Ruse over Soviet intelligence and kept America out of a pending nuclear war with Russia. Having one tactic that works again and again is far more valuable than an arsenal of other tactics that don't work too good in military intelligence. My saying was "What works works!" And so I did the same secret tactic again and again and again! And won! And won! And won again with the same tactic each time!

Wash., D.C. has misread my character and I am not their sucker for their tactics as they think of me now. As they have strung me along thinking I would allow them to, I now add \$1 million to the settlement figure as they had no intention of returning to me the \$525,000 C.I.A. stole from me years ago and I had witnesses as to the amount stolen by them. New figure for settlement with me and I turn over the top secret nuclear attack plans against America for annihilation for America is now \$1,525,000.00. End of April then add one more million dollars and each month add one more million dollars. Don't worry! They owe me all this money for reasons not stated here. If not settled with by end of December, 2018, one million added each month after that and new condition added is they have to pass my proposed Omni Law or I will not allow them to financially settle with me. If I judge they are not planning to settle with me, will then consider offering the nuclear attack plans of Moscow to some ally government of America for \$20 million or more and once having these top secrets of Moscow, France, Britain, or Israel for example could then be militarily strong enough to smash even Russia, China, etc. Or if Iran tries to be a nuclear power, then easily smash them at will! Whichever Ally of America then ending up with these top secret nuclear answers from Moscow will have to defend America then as Wash, D.C. would have demonstrated then they had no real intention of defending America from nuclear attack as refusing to get these top secret nuclear attack plans of Moscow which are mighty clever and sound in military use and on a budget for military defense or military offense. In order to protect and save the American people from potential nuclear annihilation, I would be forced to such an extreme answer to save America from its own pathetic national government run by the corrupt and pacifists in influence due to the backing of the corrupt, high treason press of America and high treason political elements in America both public and private.

Those with loan money in our Omni Law Loan Program would receive divided pro rata between them 50% of all final money produced with the Moscow top secret nuclear annihilation answers and divided between them of how much loan credit they have in our loan credit versus credit of others in our loan program. If settled with before end of March, 2018, I retain all the

money and begin financing some of our programs designed to pay our backers annual income divided pro-rata between them based on the percentages agreed we would pay from. And of course will vigorously work to pass our proposed Omni Law as the new constitutional amendment of America and new U.S. Bill of Rights of the American people added to the present U.S. Bill of Rights. As we don't give title to these loan credits you have, that means you can't sell your loan credits to others unless we later add title to your loan credits which would turn them into securities under definition of law at that time. I know the definitions of law and strictly operate under our legal rights guaranteed under the U.S. Bill of Rights of the U.S. Constitution. As America's survival is now put at extreme jeopardy due to the traitors in Wash., D.C. trying so hard to push us into a world war with Russia which I consider a "dumb as all hell of an idea to push in America." I want Russia to be a partner with us in world trade, not an opponent we have to fight in a world war due to the idiots dumbly wanting a war with Russia in Washington circles right now and also too many high treason newspapers and other news channels are pushing war propaganda against Russia instead of common sense how we can establish good trade relations with Russia which I think the Russian people would want also as they are likely no more enthusiastic about starting a war with America than American people wanting a world war also!

Our Omni Law Loan Program shown on our website www.fastboomamericaneconomy.com Use the Paypal button there if you want to put loan money into our loan program or else send a loan payment made out to NIFI, say for Omni law and send to NIFI, P.O. Box 1465, Seneca, SC 29679. Canadians and other pro-Western people welcome to join our loan program as we are fighting for your survival also against a pending world war being pushed by corrupt and insane elements inside of Wash., D.C. I am not afraid to fight a world war, but think it a terribly dumb idea for America. I therefore belong to the peace party of America, not war party of America, and I believe in the former President Ronald Reagan policy of "Peace through strength!"

As I said in the beginning of this national report, I am now practicing the Sibylline Oracle policy of ancient Rome to raise the price for the information that saves America from pending World

War III until Wash., D.C. decides the American people and America are worth defending and so now settle with me so top secret sources in Wash., D.C. have the top secret nuclear secrets of Moscow which were intended to annihilate America with if war broke out between America and Europe. I do think that Congress is not worth trusting with these top secret Moscow nuclear warfare answers and so recommend the military keep these secrets top secret and just recommend to Congress military policies for America to carry out. Pass this report on to other Americans as the fake news press and allies will try to hide this report from the American people if you let them do this to you the American people. Yours for God and Country, Erasmus of America (pen name for a daring American in military intelligence who spent eleven calendar years in military academies and know how the intelligence game is played.) [www.](http://www.fastboomamericaneconomy.com)

fastboomamericaneconomy.com miraclebread17@gmail.com If you need it, again loan payments may be sent to NIFI, P.O. Box 1465, Seneca, SC 29679. Give us your name, address, and email as you tie our hands to a slow response to you if we have to use the "snail mail" to answer you back. P.S. Too many Members of Congress act like politicians instead of statesmen so why I do not support sharing this top secret Moscow information with them! National security should be respected by the top political leaders in Wash., D.C.!
