My son and I are volunteering with this organization to raise money for third world countries to make clean water more accessible for their communities. The walk or run is May 22nd Saturday at MB state park. It's a 6k which is about 4 miles which is the approximate distance that these woman and children have to walk on a daily basis to collect dirty water and risk becoming sick or abducted along the way. Race registration before May 1st is \$35 and after \$50. Would you be able to post this on your Facebook wall to help get the word out?
