Subject: SCDOT Photo - I-95 lane closure

Attachments: I95SB June 7 2016.jpg

---

Photo of I-95 bridge deck (SCDOT)

SCDOT is closing a southbound lane on I-95 on the bridge over S-18-53, near mile marker 75 in Dorchester County for an emergency deck repair. A temporary steel plate is being mobilized to site to restore traffic until a permanent repair can be scheduled during non-peak times. The cause is aging infrastructure; a previous patch has broken loose.
