at 1:17:30 on 6/20/2012 UTC

**South Carolina State Parks** WOW! We have some very clever followers! While many of you had fantastic and correct answers, I was referring to the Summer Solstice or First Day of Summer! And there was one obvious answer.....June 20th! Thanks for playing along park people! Enjoy your daylight tomorrow!

at 1:22:12 on 6/20/2012 UTC

**James Grady Bishop** The Summer Solstice is the longest period of daylight of the year though some erroneously refer to it as the longest day. From this day forward daylight time grows shorter each day until the Winter Solstice when the daylight time again begins to increase.

at 1:33:23 on 6/20/2012 UTC

**Andrea Gainey Jackson** First day of summer

at 1:33:55 on 6/20/2012 UTC

**Ruth Bailey** Summer solstice or northern solstice.

at 2:41:51 on 6/20/2012 UTC

**Becky Rodgers Byers** First day of summer

at 3:04:20 on 6/20/2012 UTC

**Kathleen Leilani Hiester** equinox is when the hours of daylight and night are relatively close and occur in spring and fall. A solstice occurs in summer and winter and represent the shortest and longest days of the year. So tomorrow would be the summer solstice and longest day of the year.

at 3:14:09 on 6/20/2012 UTC

**Nancy Jo Swan** Summer solstice

at 3:16:58 on 6/20/2012 UTC

**Krystal Mason** Longest day of the year
