

RATING CRITERIA AND APPLICATION OF CRITERIA**Maximum
Points
up to 30**

1. Project represents the following type of space:

Points by Type
of Space

| | |
|---|----|
| a. Instruction, Library Research, Infrastructure | 30 |
| b. Academic Support | 20 |
| c. Student Services | 15 |
| d. Institutional Support | 10 |
| e. Non-E&G | 00 |

Application:

- Points are assigned based on the percentage of proposed use

2. The degree to which the proposed project addresses the deferred maintenance needs as defined and included in the CHE's most recent Study of Deferred Maintenance.

up to 25

Application:

- Points are assigned based on the scores in the study.

| <u>Score</u> | <u>Points Assigned</u> |
|----------------------------|------------------------|
| 90-100 | 10 |
| 80-89 | 15 |
| 70-79 | 20 |
| Less than 70 | 25 |
| Infrastructure | 25 |
| Not addressed in the study | 0 |

3. Documentation that the institution meets

up to 25

- A. efficiency rating based on space utilization for instructional purposes (12.5 points); and
- B. Guidelines for ASF of academic space per FTE or
- C. ASF of research space per \$ of research expenditures.

Application:

- Efficiency rating¹: a space utilization factor at or below the space factor guideline of 1.22 will generate 12.5 points. For space utilization factors above the 1.22, points will be deducted from the 12.5 maximum for part A on a percentage basis.

¹ Does not apply to MUSC or the USC School of Medicine, up to 25 points are allocated by ASF/Research Expenditures only.

- Growth Rating: Research Institutions – at or below 9,000 ASF per \$1,000,000 of restricted research expenditures = 12.5 points; for Teaching Institutions – at or below 93 ASF of Academic Space per FTE = 12.5 points; and for two-year institutions – at or below 70 ASF per FTE = 12.5 points. For institutions above the guidelines, points will be deducted from the 12.5 maximum on a percentage basis.

4. Documentation that all reasonable alternatives to the project have been considered, that the project represents the best long-term resolution of the problem, and that the total estimated cost, including each component, can be documented as realistic. up to 10

Application:

- Institutional/external documentation, and project has score of 80 or less in in deferred maintenance study – 10 points
- Project is infrastructure or mechanical repair/replacement (etc) – 10 points
- Internal/external documentation, and project has score greater than 80 in deferred maintenance study, was not addressed in study, or significant deterioration since study – 7 points

5. Documentation that the space programmed for the proposed project is based on the application of objective space planning guidelines (i.e., Space Planning Guidelines for Public Colleges and Universities, CHE, revised 1997. up to 10

Application:

- Institutional/external documentation provided - 10 points
- Infrastructure/Repair/Replacement (mechanical) - 10 points
- Not addressed – 0 points

Total up to 100

Extra Points: Health and Safety Issues up to 10

Application:

- Documentation through external reports (CHE consultants, institutional consultants, specialized accreditation reports, CHE staff evaluation, etc.) that existing space is unsatisfactory and/or unsuitable in terms of quality or quantity because of health and/or safety concerns – 10 points
- Documentation by the institution without external documentation (66 percent of available points, rounded up) – 7 points
- Not applicable or not addressed – 0 points

Grand Total up to 110

Examples of Health and Safety Concerns:

Documented Health Concerns

Exposure to asbestos or other harmful substances; documented problems associated with air quality, etc.

Documented Safety Concerns

Threat of physical danger associated with condition of the facility; life/safety issues (egress, fire-code compliance, etc.)

RATING PROCESS

- Institutions may determine the priority of the projects they have submitted through the CPIP process.
- Institutions will provide the appropriate documentation required by the rating criteria for all of the projects they choose to have included in the process. If appropriate documentation for one or more of the criteria has already been included in the original submission, the institution will not have to resubmit the documentation. However, institutions should submit any additional documentation that they believe would assist the Committee in determining that a criterion has been met.
- Because the legislative request specifically states that safety concerns be a primary criterion, up to an additional 10 points may be assigned to projects that address specific documented health and/or safety needs.
- CHE staff will determine if the projects have met the basic criteria for rating, and the degree to which the criteria have been met.
- Scores will be assigned up to the maximum number of points for each criterion.
