Katherine,

Over the past few years security settings we're put in place to protect the state network from some international networks.

So, next weeks there may be issue with traveling users accessing state resources. It may potentially effect laptops, when connected to foreign wireless networks, as well as mobile devices.

In the event that users unable to access email or other state resources please call, text or email me and I'll work to get the restrictions temporarily lifted.

We are unable to know what networks they will be using to access state resources, however DTO is fully aware of the possible issue are standing by should it occur.

Please let me know if you have any questions.

Regards

Jim
