Y'all, the Reserve America Pre-registration forms are terrible. I'm trying to input updated information and it is not showing a change after submitting the form. I have two tent site reservations at Devil's Fork State Park April 4-7. One site is for my family and the other for my brother and his family. We will each have cars, which currently shows we won't have any. It's also not letting me input their names. The reservation is 2-41723925

It should be fine. I would recommend calling the park directly, possibly tomorrow, to see what they recommend. The number is 864-944-2639. Thanks!
