Sheriff's Deputies arrest entire family for Narcotics

Neighbors use app to report suspicious activity

SPRING, Texas -- An entire family was arrested after tips reported through a crime prevention app from the Harris County Sheriff's Office. Raymond, Stephanie, Jess and Madison Wood were all charged with drug possession. The parents, Raymond and Stephanie were also charged with possessing an illegal weapon. It happened Friday morning on Candlepine Drive in Spring.

Neighbors claim they watched a constant flow of traffic to the house and even watched suspicious activity in the wee hours of the morning. At least two of the neighbors picked up their smart phones and used the app called iWatchHarrisCounty app and reported the activity. The officer behind the app is Sergeant Larry Franks.

"It was a narcotics tip," recalled Sgt. Franks. "The narcotics unit went out there. They did an excellent job developing probable cause. We got a search warrant went inside the house." Sgt Franks said officers found plenty at the home.

As Mobile Use Expands In your Connected Society, So Do iWatch Programs.

In defense of the classroom
