To: The Beaufort Co. Probate Court Judge
Heather R. Gartin & Others.

I have talked to my wife today by phone. We are both stressed out. Due to your one-sided hearing & lack of action about not doing anything about Erin taking her mother to Florida which is in violation of your Court Order you are doing a great mental & physical harm to two old people. In my opinion you gooped & the rest of the so called legal & law enforcement people are trying to wait out our lives so that this will go away. It will not & then what is going to be your excuse. You can not answer me & you know it. The truth will come out. I only hope that the FBI will get involved & clean up this South Carolina mess.
