Columbia, S.C. 29203  
Mr. Curtis Loftis  
State Treasurer

01-10-17

Dear Mr. Loftis,

I was watching the Jackie Robinson Story and could not help but see the same ignorance of acceptance for the benefit of our fellow man with Environmental Green Industrial Hemp Revolution. The virtue of doing what's right for Citizens versus the lies and deceit of Corporation America causing excessive harm to earth and inhabitants for profit! Hemp was signed into Law by Governor Haley in 2014 but no Law Enforcement Agency is allowed to meet or talk with Citizens by order of SLED Chief Keel. Chief Keel had 42 armed Police from around the State at Senate Gressette Building to intimidate Citizens trying to help their children with Cannabis Oil.

I ask you as a Citizen of South Carolina to get Chief Keel and yourself down to Marion, South Carolina for the Hemp Meeting on January 14, 2017 at 10:30 a.m. at the Opera House. The potential Trillions in commerce for the Citizens of South Carolina will amaze you while supporting THE REAL ENVIRONMENTAL GREEN MOVEMENT. Tommy Windsor got a bunch of e-mails from me yesterday to show you the direction that hemp could take the Citizens of South Carolina and it would create Grants and Loans for South Carolina State too. The removal of poisons and chemicals from products used every day which is doing damage to earth and inhabitants is a number one goal. Creating new tax revenue while keeping South Carolina Land and Factories out of Foreign Corporation hands is a priority.

Hemp is McDonalds and Medical/Recreation Cannabis is Sandy's Hotdogs.....

The States of Oregon and Washington made 1 Billion Dollars off Cannabis sales last year while taking profits away from Gangs and Cartels. These taxes are on the record and none of the money was shipped out of State or to Foreign Country. Colorado has not released their year in tax total but Domestic Violence has fallen by 65%. Cannabis has outsold Alcohol in Colorado since October of 2015...?

The Citizens need you to step forward and invest State money in Hemp that will pay more than Wall Street. If you will reflect back.....I told you in 2010 before you were elected....Hemp would be the next Bull Market on Wall Street!

The train has left the station and true leadership is needed for innovated approach to new Environmental Green Horizon. Will you stand up for God's most useful

seed/plant to gift to our Planet? Our Citizens need you to help create the jobs and small businesses for the Trillions our Land and Factories could make.

School Buses could be paid for with Hemp Cultivation. The diesel from Hemp Bio Fuel has no toxic fumes, black smoke or chemicals to harm our school children and environment. My Ideas are shared with you for helping me instrument positive change for our Citizens and Environment.

We have a company that gets 15 Million a year from Federal Government to produce Bio Fuel from Sycamore Trees which is not very productive. Hemp is the best Bio Fuel known to man and when you spill Hemp; it's liquid Fertilizer!

Could reduce Sonoco pollution by 40% and make all packaging material biodegradable. The small business idea is taking their tree land which takes 6 to 10 years to produce and growing two crops of hemp each year on same acreage. No carbon footprint, poisons or neither chemicals nor do we have the allergy causing yellow carbon in the air. BRING HOME SONOCO RACING GAS FOR NASCAR???

Mr. Loftis, Please let me know that you are reading the material that was sent to Mr. Windsor and thinking of ways to help Citizens. There is much more to tell you; if you would like to sit down and discuss the possibilities of cleaning up South Carolina Federal Slush Fund polluted lands and landfills while taking poison and chemicals out of Water, Air and Ground. You now have ways to find out the truth in Tommy Windsor e-mails and I can send you what you need if questions arise. Hemp for Mother Earth: Common Sense, Insight, Imagination, Ingenuity, Innovation & Integrity!

South Carolina State has Federal Environmental and NASA contract so they could be brought out of the Red and get Grants and Loans to help with the new jobs and small business opportunities that are being created while South Carolina Politicians continue to let our Citizens: Suck-Hind-Tit-on-a-Boar-Hog.

Thank you for your time. This is a major stake in the future of our Children for the next hundred years. Some of the information in Mr. Windsor's e-mails is not even being used in United States at the moment but Homeland Security and Environmental Agency has Billions in Grants and Loans for these proven ideas. May you respect the wishes of the Citizens and get hemp to making Trillions so our roads and everything else can use the tax money instead of Cartels and Gangs taking it out of STATE or Country!

Peace & Happiness

Call Dennis Tyndall, West Columbia Police Department, to see I've given him information for 4 years and SLED Chief Keel will not let him sit and talk to me about Hemp. I've sent hand delivered one informative package to his office and mail one from Colorado!

Cain't never could till he/she gave it a try.....
