1) Sheheen/flag

Quote from Rob Godfrey, Haley deputy chief of staff: "We're going to leave past political disputes with Vince Sheheen where they belong - in the past - and we hope he'll do the same."

2) on 2010 allegations

On background: there was absolutely no truth to those allegations then, and there isn't now.

Quote from Rob Godfrey, Haley deputy chief of staff: "Nikki Haley ran for governor promising to give the people of our state a government they can trust that works for them, not the other way around. When you challenge the entrenched status quo, as the governor has, you make a lot of people mad and they do whatever they can to try to stop you, but that never stopped the governor during her first term, and it certainly won't stop her now."
