Subject: I just watched "Independent Lens"

I'm so shocked-stunned. I don't have words to express the deep sadness I felt upon hearing about your rejecting the big chunk of money that would have helped so many people who are so ill. I also feel a little nauseated thinking about what you did.  
I'm a clinical social worker. I've listened to stories of horrific abuse. I've never encountered or heard about anyone as cold and cruel as you.
