To Everyone,

Here we are still at it. Why is the Port Royal Police, The Beaufort Co. Probate Court, the S.C. Commission on lawyer conduct & the S.C. attorney general ignoring my complaints? I think they have a lot to try & cover up for. Their reaction and/or inaction is very telling to me. Meanwhile my wife & I are still suffering our separation & she is in captivity - confinement in Florida over a violation of a S.C. Court Order & the Probate Court will not do anything about it. The only way I can be stopped is to try & correct this mess caused by our so called legal people. I think this needs to go to a Federal Court because my wife & I have had our Civil Rights violated & the local, county and state are trying to cover up their errors. What is next - seizing all of my papers - that went work - I still have a brain and there are enough documents in enough locations to cover that. I will gather all of my papers & start mailing copies of this until someone somewhere gets the guts or sense of fairness to pursue this injustice. Then there will be an

accounting which all of the cover up
people can not answer to. I have nothing
to hide and I will spare no details
either. All of you guilty people are not
concerned about 2 old people nearing
their mid 80's year of age. I want you
to just remember for now that my
wife & I are people too.
