I'm glad 1:30pm today will work to meet! We have also asked Sam Waldrep, who serves as a senior advisor to IMPH on LTC issues and chairs our LTC Implementation Leadership Council, to join us. Since there will be a handful of us now, perhaps it would be best to meet at IMPH in our small conference room. If it is easier for us to come meet at your office or in your small conference room, just let us know! Easy commute!

Thanks so much,
Eleanor

Importance: High

Hi Mr. Morris,

Again, thanks for your email suggesting potential times to meet. Would tomorrow (Tuesday, 2/3) at 1:30 p.m. work for you?

Kester, Nate Patterson (IMPH's Director) and I are available at that time and would look forward to sharing information about IMPH's [Long-Term Care Taskforce](#) and the activities that have grown out of that effort. Since the release of the [taskforce report](#), IMPH has convened an implementation leadership council to help promote and track progress on the 30 broad recommendations made by the taskforce. (As you may know, Mark Plowden served on the council to represent the LGOA.) A brief [status report](#) on recommendations prioritized by the council during year one of implementation was released in October 2016. We'd be glad to bring copies of the reports and look forward to hearing about your current work as well.

Thank you!
Eleanor

Eleanor.
I am available Monday after 2:00 and Tuesday Morning or Afternoon.
Just let me know what fits for Kester.

Hi Mr. Morris,

I just wanted to follow up to see if we might identify time for Kester and IMPH staff to meet with you regarding our LTC Taskforce and the implementation activities that have grown out of that taskforce. The LGOA has been a critical partner in this work, and we look forward to future opportunities to work together now that you are at the helm.

I've just touched base with Kester about his schedule. He has flexibility during the week of February 6 so we would be glad to meet at your convenience. Could you let me know if you have any availability then? We look forward to meeting soon.

Thank you,
Eleanor

Hi Mr. Morris,

It was a pleasure to meet you last week when you stopped by the IMPH office to talk with Kester! Welcome to the

3rd floor!

Following up on that discussion with Kester and Coretta's virtual introduction below, I am emailing now about scheduling a meeting to brief you on IMPH's Long-Term Care Taskforce Report (which was released in June 2015) and the implementation efforts that grew out of that taskforce. This email is meant to get the scheduling ball rolling and then I can provide additional information in advance of the meeting, if needed.

Kester happens to have a good bit of availability next week; in fact, Tuesday (January 24) and Wednesday (January 25) afternoons might be good times to shoot for. If you have availability next week, we'd love to find a time that's convenient for you. Could you let me know if you have any open/preferred timeslots next week? Based on your preferences, I'll coordinate with staff here to find a good time. (If we need to look at time options later in January or early February, please feel free to suggest options that work for you.) If there is someone who keeps your calendar for you, I'd be glad to follow up directly with that person.

As I mentioned previously, the LGOA has been an important partner in our LTC efforts. We have had the opportunity to work with Mark Plowden and Jason Brown (as well as many LGOA staff members) during the implementation phase of this work. Please let me know if I ought to coordinate this meeting with their schedules as well.

Thanks so much,
Eleanor

Subject: RE: IMPH report

Thanks so much, Coretta! We look forward to meeting Mr. Morris and sharing information about the SC Institute of Medicine and Public Health's Long-Term Care Taskforce and subsequent implementation activities. As an essential resource to older adults and caregivers across our state, the LGOA has certainly been a critical partner in these efforts. We have appreciated the opportunity to work with Mark Plowden, Jason Brown and many other staff at the LGOA throughout our LTC efforts and look forward to building on that momentum with Mr. Morris's leadership of the LGOA.

Nate, Sam and I will follow up after the upcoming holiday weekend.

Best regards,
Eleanor

Steve,

Thanks for meeting with Teresa Arnold and me yesterday. It was a most productive discussion. I meant to mention to you that you will be hearing from Nate Patterson and/or Sam Waldrep from the Institute of Medicine and Public Health. They want to chat with you in more detail about the Long Term Care Task Force report that we briefly discussed yesterday. Please allow this email to serve as a virtual introduction to Nate, Sam and Eleanor, the IMPH team members who are coordinating efforts on implementation of the task force report.

See you soon.

Coretta
