Subject: Caseloads - Defendants Counter Proposals November 13

---

Hi All,

I think our caseload limit counter should be simply:

A.2. Implementing the Workload Limits for Foster Care.

(a) At least 90% of Workers and Worker supervisors shall have a workload within the applicable Workload Limit.

(b) No Worker or Worker's supervisor shall have more than 125% of the applicable Workload Limit.

There's very little upside to interim targets, so I oppose them in general. The 90%/125% limits are the most generous I've found so far. The real work is in settling on the measurement methodology.

There, we are better off with the co-monitors as decision-makers. OK may be the only state that has the methodology settled. Others are in various states of limbo after 10-20 years.

Brief notes:

- as long as "Each Workload Limit must be approved by the Co-Monitors before it is adopted" is read to give latitude to negotiate methodology & limits with monitors, this is great.
- [basis: CWLA: fc-only, 12-15 kids; GA: fc-only < 18 mos, <= 15 kids, latest=95%; MI: fc-only <= 15 kids, target=95%/latest=92%; NJ: fc-only <= 10 kids, target=95%/latest=98%; OK: fc-only <= 15 kids, target=90/120%.]

Andy

Good morning

Given that we didn't receive the word document until 12:01 am, Carenn is finishing the current revisions. We will need to act quickly to offer comments and suggested revisions. John, Andy has indicated we will need your assistance with Therapeutic Foster Care Placements. We would like to conference at 1:30 if possible. Carenn will circulate the call in information. Thanks B
