Looking through some of the news articles I can see some of the decisions they made when they came back. The biggest ones being not to increase license fee and to cap sales tax at \$500 not \$600. And the out of state user fee of \$250.

As for the tax credits, it looks like they kept the refundable fuel credit and tuition credit but I'm not sure about the others. Hopefully the video will be up tomorrow and I'll be able to give you a more detailed report.

Did such a state EITC exist before?

It creates a non refundable state tax credit equal to 250% of the federal earned income tax credit. Phased in over six years.

Yes, but early, in case we need to ask someone to block it. Also, can you give me two or three sentences on what the EITC adjustment in the gas bill does?

What's the difference between 48 and 49?

Only differences I see in quick review is the addition of sections 48 and 49 to the house version
