Subject: Tony Keck

Katherine,

Hope you are well. Had the great opportunity to hear two presentations from Tony Keck this week. Both were outstanding.

I was mesmerized by his Med Affairs presentation and Q and A. The best the other side can offer is jargon about \$3,000,000,000 of which nearly half is borrowed to spend in an area that will not improve the economy and will not improve health. It is jargon not real dollars. China would disagree probably. The Chinese will want to be repaid with real dollars.

The Governor and Tony were right to lead the country in rejecting Obamacare. His explanations were both poignant and understandable. Furthermore, His work has equipped us to fight Obamacare AKA : " A Demonstration on the fine art of demolishing a countries financial infrastructure."

Please congratulate the Governor and Mr. Keck for their steadfastness in fighting this war against the totalitarian mentality displayed by the Obamanians.

Sincerely,
Mike Fair
