Message:

Hello, I am writing this on my mother's behalf. She has worked her entire life and is now very much disabled yet, she has been denied disability 5 times. I just cant understand this. She is bipolar and also suffers from COPD, spinal stenosis, hepatitis C, and cirrhosis of the liver. I just do not understand why they continue to deny her. She is on the verge of losing everything she has worked for in life. I need help to help her. Please if you can help us please do. I do not know what else to do. Thank you for your time.
