Langley Air Force Base & Fort Eustis
merged their
administrative
functions,
becoming
Joint Base
Langley-Eustis
(JBLE).

Joint basing promotes and fosters a more cohesive operational partnership between the Air Force and Army.

What that means to you is **a shared procurement structure** with over 40 pooled purchasing agents representing both LAFB and Ft. Eustis.

The **633rd Contracting Squadron** provides \$1 billion annually in operational and contingency contracting support to combatant commanders, Joint Base Langley-Eustis, 1st Fighter Wing, Air Combat Command, U.S. Army TRADOC, and more than 20 associate units.

Fort Eustis's primary mission has been Army transportation training, research and development, engineering, and operations, including aviation and marine shipping activities. The Post is under the command of the **U.S. Army Training and Doctrine Command.**

TRADOC oversees 32 Army schools executing its mission through six major centers and commands at Forts Lee, Knox, Leavenworth, and Eustis:

Langley AFB is the home of the USAF's 633d Air Base Wing (633 ABW), 1st Fighter

ExpoJBLE & the lectures
are an effective way

face-to-face with military and government contracting officers, program directors and people who can influence purchase decisions, as well as gov/mil contractors looking for teaming agreements.

**The seminars and panels
are an integral part
of your event experience.**

These government presenters have been approved with an allocated budget to participate in this event in an effort to assist YOU, the exhibitor, in understanding the procurement process and assist you in developing contracts within their jurisdiction.

**We strongly suggest
you bring**

Wing (1 FW) and the 480th Intelligence Surveillance and Reconnaissance Wing (480 ISRW). It also hosts the Global Cyberspace Integration Center field operating agency, the 192D Fighter Wing of the Virginia Air National Guard and Headquarters **Air Combat Command (ACC)**. ACC organizes, trains, equips and maintains combat-ready forces with more than 83,000 active-duty and civilian members.

About NASA LaRC

Langley Research Center (LaRC) is the oldest of NASA's field centers. LaRC focuses primarily on aeronautical research, though the Apollo lunar lander was flight-tested at the facility and a number of high-profile space missions have been planned and designed on-site.

I Want To Exhibit at ExpoJBLE

TWO exhibitors

One to man you exhibit and the other to attend sessions.

The gov't presenters are dedicating 45 minutes per seminar and 2 hours per panel discussion to provide a proactive opportunity to meet with you.
