Subject: Re: More government competitors with Google Support to abuse all media

More explanation to the last email . We all know free enterprise can run a business much better than the government . One only has to look at countries where Free Enterprise does not exist or is heavily regulated and taxed where no profit is possible . I live part time in Argentina and speak with much

knowledge on this , as well as own Cuba.com and spent lots of time in many communist and Socialist countries . Here we go in brief

Local Chambers and CVBs ---running for-profit media products using others money and if they need more they just go ask for it and most cases receive it from members dues, DMO monies from local bed tax etc, State matching Grants, funds from for profit ventures. Google ranks them number one in most cases Free Enterprise is at an extreme unfair disadvantage !!!! Again Hilton Head is a perfect test and example. Read all at Stopchamberabuse.com

Note again a Chamber /cvb unlike a .gov has no government affiliation , not official , not a franchise , no license or connection to any national organization in any form or fashion. It's supposed to be member owned and controled with elections and term limits of board members . On Hilton Head members have no vote and we have identified a violation to the bylaws. Many answers not received and thus Chamber has now hired two lawyers to deal with me.

US Chamber , American Chamber Of Commerce Executives -Acce.org, Destination Marketing Association--Destinationmarketing.org are all independent but promote each others abuse.

US Chamber Of Commerce ---more interested in helping big corporations versus small business in America. How else would this abusive non profit get away with paying its President Tom Donahue 4.7 million salary in 2010 look up this on any search and read Huffington Post and others coverage of this abuse. Who knows what else without a real in-depth audit ??????

America Chamber If Commerce executives ACCE are masters at teaching all Executive Directors how to develop programs to make money and in many ways compete with Free Enterprise and local media members who joined the Chamber and Cvb to support them not attempt to destroy them . Now you here what I have identified when you look deep you will understand

Destination Marketing Association --- you can't even join unless you are the Official DMO of the City. Again masters at teaching the Chambers and CVBs heads who have become the DMO to compete And help destroy and compete with local media and launch and run money making projects. What Chambers need to do is operate like all of us and operate under a budget anyone can operate with endless free tax monies etc. Hilton Head Chamber versus receiving 5.5 million and spending 3.5 million on overhead should and being self serving with 25 employees , 400k pay package for its executive director should have 5 employees , 75-100k max salary . Governor Nikki Haley makes 106k and President Obama 400k helps to put it in perspective.

State PRTs again many of these now running for profit media selling ads, etc and trying to destroy state and local media. Again more bureaucracy who feel they are entitled , empowered to do As they wish and justifying it as all ok and the good of mankind .

Now we have Google a free enterprise

Company started and founded on free enterprise system choosing to promote Gov , State and Chambers /CVBs over other free enterprise media and helping all these type government entities to compete and destroy the free enterprise system media locally and nationwide that helped make them all rich . Whether its planned or not it's happening . Each market will vary but for sure Chambers /CVBs use their profits and tax monies to buy key words

To continue to drive traffic to them not us as media members . So now google gets our tax monies,

and all monies from all sides.

Ok now what are the solutions for each of us. Very simple Black and White

1 You go to your local Chamber , State PRT and tell them you want them out of your media business which means no more selling advertising for profit

2 You tell them you want their site to become free member benefit chamber /Cvb directory site like a yellow pages , list all local media resources on the home page for users to click onto of their choice . Ask them why this is a for profit media site that competes with you?

This way if Google wants to list Chambers and CVBs number #1 then we will all get traffic from this fairly and the reason Chambers and CVBs were created to support all members not just some. Chamber /CVBs should not be in any competitive business including others like insurance , banking , travel agency etc all leads and promotion should include all their members . A directory site accomplishes this.

3 Tell them if they don't stop then the lawyers need to talk as we are doing on Hilton Head.

4 Start a local Media Association so all local media can speak as one voice on issues that effect them. Then ask to meet with the Executive Board of your local Chamber to read them Your rights and theirs .

5 Start a competing Area Business Association and start with all local media members first . This way it gets promoted to gain members . Then this Association meets with the Chamber / cvb boards and joins the Chamber as a member. Later this organization applies to become the Official DMO of that City based on sound business practices and responsible spending of members dues and proposal for proper spending of local tax Dollars. We will do this on Hilton Head

6 Start another local Chamber and CVB

This is what some in Bluffton did they started the Bluffton Chamber to separate from the Hilton Head Bluffton Chamber . I will also start and fund the Hilton Head Chamber as a free membership free business listing website all virtual. No office, no 400k salaries , no chamber balls, no 25 employees , no tax monies , no overhead except maybe 1 person .

Will have one business after hours per month at Different business . The local business makes the money not the chamber as done by most , 4 times per year local speakers on various business and Internet topics . No profits to be taxed. Also will set up a

Hilton Head CVB . Both structures of these new associations I have full legal rights to and will be based on the IRS whistle blower program ruling soon. If for some crazy reason IRS says the Hilton Head Bluffton Chamber owes no back taxes and can operate for profit media businesses and pay no corporate taxes we will do the same they receive 5.5 million and 3.5 million in overhead and 400k pay package to its ex dir . We will just set up all my media exactly the same way , same bylaws, same mission and just pay myself and people I work with high salaries and no corporate taxes as a 501-c6 non profit. The difference is we will not abuse members we will promote all including local media. No favoritism all equal.

Same with Southcarolina.com we will simply become the Official site of the South Carolina Chamber and ask the SC PRT to cease all and any forms of advertising sales. Each of you can do the same .

7 Now ending with a great idea and one we all need to try tomorrow. Call your local Chamber /cvb

ask them how much for a banner ad on home page get the largest you can and tell them you want it to read

Click here for All local Media info or travel info. This could also be done with The local media association. See what they say!!!!!! The way it should be is ask them if you are a members

Why are they not listing you and all local media as resources for our city ? Versus competing ? Ask them why is the site not free and a member benifit to all members as a directory site ?

Why is it run as a for-profit local media.

Ask them why If they do distribute local for-profit magazines that compete with all magazine members and have been with damages and avoidance of IRS taxes for 40 yrs? Again remember each city is unique and some CVBs and Chambers might actually be run and controlled correctly , but many are not and this is why I am exposing those who don't. My objective is not to destroy Chambers /CVBs it's get them back to their Original intent and Charter to be run as member controlled Organizations to fully support all their members fairly and equally and stop all abuse and violations that many Ex Dir and boards with corrupt politics and votes that have been allowed to get away with and allowing these arms length for-profit ventures because the boards have been made up of people not affected directly by the abuse . If you want a 400k salary all you have to do as a CEO as we all know is surround yourself with the right people. Couple this will no votes by members and no term limits for Board members it can get ugly . Thanks

Please excuse all typos and misspellings from my Iphone, now 80% mobile.

> Look deeply at your own Chamber, CVB , State Sites, etc etc . If this is not competing and hurting free enterprise with Googles help and getting paid from tax dollars ,our dollars!!! , then Perhaps my

sanity needs to be challenged . I again repeat its out of control and the Bureaucrats have become of the mine set they are entitled and empowered to be able to get away with this abuse to free enterprise and enter the for-profit media business and operate under the radar to be challenged or pay any IRS corporate taxes !!!!! Just imagine the level of abuse on all forms and what would happen to all of us operating for profit business with shareholders if we attempted to do much of this. I again tell you please read Stopchamberabuse.com to help you identify all abuses in your own back yard. If you do not agree 100 % with all of this, then i can only assume the future and local ad revenues is no concern to you.
