

Dec. 30, 2014

To: Judge Heather R. Galvin of the  
Beaufort County Probate Court and  
Others that I will send this to.

My latest experience started at about  
7:00 AM with two wonderful people who  
drove me to Seminole Florida to see my  
wife of 62 years. The attendant or clerk  
in the lobby said my wife could not  
see me because of "legal issues". I was  
where that I came from judge. The  
director was called at home & the  
answer was the same. So we came  
back to the Beaufort area & it was  
4:00 AM Tuesday. I waited trip except  
that I am building my case about  
Erin lies, Greed, Control & treachery  
but you have ignored that in the  
past, so what is new. I have a lot  
of moral support & a great deal of ~~physi~~  
physical support but the decision you  
made still prevails. In case you  
have forgotten or just don't care I  
will list the facts again. Erin  
lied to all concerned - her attorney  
the two doctors & made a statement  
to the Court which was perjury.

No one from DSS or any other County official Capacity investigated the situation - everyone just believed Erin. I was not allowed to say one thing at the March 2013 hearing and my wife was declared by you to be a protected person and spent about 7 months in the Helena House. The Court appointed Attorney Alqasim Eversale had my wife transported to Columbia S.C. after the Aug 2013 one sided hearing and the "shrinker" there said my wife should be in her home & she came home. Now who is right or wrong. The next event was my wife had diverticulitis & went to Beaumont Memorial Hospital & Erin came from Largo Florida in violation of your Court Order & you Judge Gelwin did nothing about that. Is it S.C. law or Erin's law? What are you going to do about the situation - tell me to get a lawyer - you ignored Corey Flemings "Mensa" which hit the nail on the head. I just want the Media to get involved and expose all of the facts and cover up what has happened. I have bank statements, phone records

And letters from other attorneys  
to prove my statements. The S. C.  
Bar, Supreme Court & Commission on  
Attorney Conduct are all involved  
as well as John Wilson - the  
Attorney General. I dare any of  
you mentioned parties to prove  
me wrong. I will leave it at  
that for the time being as I am  
getting written cramps.

To The Editor of the Beaufort Gazette

After reading today's paper I am inspired to send you a copy of my latest letter to the so called legal or justice system. There are about 1 or 10 Sheriff involved in wrongdoing or how about your participation in judges & other Public officials? Also I have a bone to pick with the local hospital so I will send Rick Toomey a letter before getting an attorney. But are you going to stand up & be counted or are you going to ignore this?

P.S. There are a number of hospitals in S.C. being penalized for various reasons in S.C. Let us clean up all of this wrongdoing.
