**Subject:** Fwd: Appointment with Governor Haley

---

Katherine,

As you can tell, I'm heavily involved with a group of people who are dedicated to making Greenville a premium center for neurological care.

Through the work of Lisa Cox from Spartanburg (and like me, someone who has early onset Parkinson's), we have attracted the Davis Phinney Foundation Summit to Greenville next year.

We would like to give the Governor the opportunity to speak at the Summit if she so desires.

If she is interested, we would be happy to meet with her staff for a preliminary discussion.

Please let me know.

Thanks,

Tommy

Representative Stringer

We need your help in getting an appointment with Governor Haley. As you are probably aware of the fact that the Davis Phinney Foundation Victory Summit is scheduled to take place in Greenville on the weekend of November 15, 2014. It is to this point that we wish to meet with her to invite her to be a part of the activity and answer any questions she may have. Lisa Cox has been the quarterback and focal point with DPF in getting this highly acclaimed event to our area of the country. Also, Lisa attended the recent four day World Parkinson's Conference in Montreal and is full of data, information and ideas. Of course we want both you and Representative Henderson to be in attendance at the appointment with Governor Haley.

Thanks in advance for the help from both Lisa and myself.

Ron Rossi, Sr.
