As I was parking this morning I got a call from Mark Kelley, a lobbyist from the Myrtle Beach area. He was calling on something else and mentioned that he was with the Governor Thursday night. I asked if he was at the Chamber meeting and he was. He confirmed in stronger terms than had Mike Wooten that the Governor brought up the 404 assumption in her remarks and said she was for it and was "ready to go". In her Q&A she expressed more support for assumption. Just wanted you to know about this as it seems to be verification of Mike's assessment.

I am collecting those items I mentioned and will run down the matter of Michigan and whether they are trying to give back the program.
