Please give me the exact name of how you would like it to appear in then OOP. The writing is difficult to read and they can't determine how to spell Lawrence/Laurence. Thanks

Good to hear from you, Paul. Often think of you and Peggy. All must be going well for you. Frances has been like a dog with a bone about that award and the mistake. She will not let it go. This is not a very clear picture but the best I could do. Thank you and Merrill Smith for whatever you can or can not do!
Love always, Bette
