**Subject:** Regulations 4168

Senator Bright,

Thank you for taking the time to speak with me this morning. I am going to attach a copy of regulation 4168 to this email. It will give you a history of this bill. I am also going to attach the last two commission meeting minutes so that you can see of how discussion has not been made public to the other members of the cemetery community. I work for Stonemor Corporation out of Pennsylvania and we have proposed the rewriting of 4168 since we became aware of it in 2011.

The only way that we discovered 4168 was through contacting the Governors office itself, after I called the commission directly and they told me there was nothing going on that would have any effect on our industry.

The Commission is at the point to where they are doing what they think is best with out talking to other leading members of our industry. They are aware that what they are doing is wrong because they are going to extreme lengths to keep it secret. They are knowingly allowing people to purger themselves at Senate hearings and they are maintaining control of the SC Cemetery Associations as well to keep everyone at arms length.

As I said when I spoke to you earlier, we are looking for your advise and guidance to stop the crooked political and personal games in our industry. We would like to do what the commission is designed to do and protect the public and the business owner alike.

Once again thank you for you time and I look forward to hearing from you soon.

Sincerely,

Tamala Randolph  
SC Assistant to Mary Puryear
