The same concept I was telling you about using Hemp Plastic but mine have a strip that supplies it own electricity! Hemp plastic is 10x stronger than steel.....Mr. Weeks was in the boat business for years so Hemp Plastic Boats would be great too.... Article July 4, 2016 STATE Paper 1 C.....

Look this up for all the poisons and chemicals in our Homes that could be taken out with hemp.....Hemp is the building of the future..... Did you see the article on hemp concrete that repairs itself? Our roads need hemp.....permanent fix!!!!
