October 25, 2016
The Honorable Nikki Haley
Post Office Box 11867
Columbia, S.C. 29211-1867

Dear Representative Haley:

My name is Johnny Scott and I reside at 114 Decker Court in Moncks Corner, South Carolina. I am in my fourth year of college at the University of South Carolina's Salkehatchie Walterboro campus.

I am writing you to ask that you take necessary action to ensure our state gets a hate law on the books to deter such tragedies like the one that took place downtown Charleston, S.C when Dylan Roof decided to target an innocent group of church members because of their skin color! We are one of only a few that have yet to take the appropriate actions to get a law on the books that make people think twice about showing their unfortunate view of others in any other form than their active imagination.

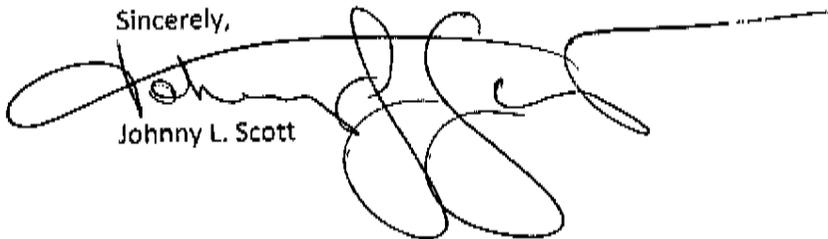

Bill number H.3589 would do just this. It would make it so that if a person has a problem with someone for something of no fault or choice of their own such as skin color and decide to act on it physically they will be made example of and others will know to keep their hatred to themselves.

I appreciate your help and ask that you please send me a response letting me know if you are able to pass a Bill that would make our state a safer place to live.

Thank you for your time and considering my request.

Sincerely,

Johnny L. Scott
