Start here. For what it's worth, the signing statement can be subdued and matter-of-fact. The point here is to stake out the "better use the Act 114 criteria" position.

Press conference will be more big numbers, etc. We've been working on charts, too. Josh will probably take over from here.

Here's the draft signing statement for the transportation bill.

Josh - could you please reality/fact-check this while it goes through final review? Thanks.
