scstateparks #DYK At the beginning of the Revolutionary War Colonial Dorchester State Historic Site was a fortified post for the Americans, its garrison was briefly commanded by Francis Marion, who later became famous as the Swamp Fox. - The bell tower was added in 1751! - 📷: @ohheyitsjesss

stu_live20 I used to live about 15 minutes from this site, 2001-07. I had no idea that Francis Marion, aka Swamp Fox, was the commander there and would have seen the same bell tower!

brownmardillesoup This place will always hold a special place in my heart. Lots of childhood memories. Including helping historians sift through the dirt from a site and finding pottery and a sewing needle!
