

Dear Gov. Hailey;

My name is Larry Shaw I was recently an employee of Anderson County Roads & Bridges Dept. I have Class A Commercial Drivers License and so was hired as a Large Dump Truck Driver. However I chose to leave my job due to safety concerns which I thought should be brought to your attention. My boss Mark McConnell told me I must drive faster even though I told him I was going the Maximum safe speed especially on narrow secondary roads. 45 mph does not always apply to large trucks sometimes a safe drive must slow to 40 or even less. He did not agree so I chose to leave for safety sake. I wanted to let you know about this in hopes of preventing a serious accident in the future even though I don't work there any more.

Thanks, Your
Loyal Supporter
Larry J Shaw
