

Dear Editor:

ELIMINATE TAXES!

This country was established to break away from heavy tax burdens. Where are we now??

You work....You pay taxes  
You spend....You pay taxes  
You invest....You pay taxes  
You bank....You pay taxes  
You dine out....You pay taxes  
You buy and home....You pay taxes (City-County-State)  
You make home improvements....You pay taxes  
You get a loan....You pay taxes  
You win the lottery....You pay taxes  
You drink alcohol....You pay taxes  
You buy clothing....You pay taxes  
You have cable TV....You pay taxes  
You have a phone....You pay taxes  
You buy and appliance....You pay taxes  
You purchase tobacco products....You pay taxes  
You buy groceries....You pay taxes

They force people to be dishonest with their taxes and leave our country with their money. Perhaps the people that keep using taxes to control and burden many of us should have to exist the same way. I bet things would change QUICKLY!

I have paid taxes for 70 years. When does this end? Not just for me, but for millions under the same circumstances.

Do something right! Time for a change!

Sincerely,

Henry Roberson
