Street Address 2:
City: Mount Pleasant
State: SC
Zip: 29464
Phone:

Email: stewartdenslow@bellsouth.net

Affiliation: Constituent

Message:

Along with all 2.1 million Sierra Club members and supporters, I urge you to support the strongest possible safeguards against industrial carbon pollution from existing gas and coal power plants.

Carbon pollution doesn't respect state borders, and neither do the extreme weather patterns like superstorms, droughts, and wildfires. We want our families, our communities, and our climate protected from dangerous and destructive carbon pollution -- not more giveaways, exemptions, and loopholes for big polluters. We need strong administrative safeguards against carbon pollution from gas and coal power plants to protect our families, our communities, and our climate.
